Crisis in Indian Tea Industry

†1945. SHRI P.K. MAHESHWARI: Will the Minister of COMMERCE AND INDUSTRY be pleased to state:

(a) whether there is any decline in the demand of Indian tea in the international market;

(b) whether the industry is suffering from a crisis;

(c) if so, the details thereof;

(d) the steps Government propose to improve the condition of the tea industry; and

(e) the steps being taken by Government to improve the quality and productivity of tea?

THE MINISTER OF STATE IN THE MINISTRY OF COMMERCE AND INDUSTRY (SHRI E.V.K.S. ELANGOVAN): (a) There was a decline in the demand for Indian tea in the international market during the last few years. However, during the first quarter of the current financial year 2004-05, tea exports from India were higher at 41.46 million kgs. as compared to 30.23 million kgs. during the corresponding period of 2003-04.

(b) and (c) The Indian tea industry has been passing through a period of depressed prices over the past five years. This continuous fall in prices of tea, coupled with high costs of production, sluggish rate of growth of domestic demand and fall in exports have adversely affected the viability of tea gardens, particularly the medium sized and financially weak, resulting in closure/abandonment of some tea gardens in the country. The industry is also beset with long term problems like old age of the plantations, worn-out machinery in the processing factories and poor infrastructure facilities.

(d) Several steps have been taken by the Government to improve the condition of the Indian tea industry. These include setting up of a special fund equivalent to collections by way of additional duty of excise
